

The easiest way to build a mobile application for your business idea.

Jeremy Redman jeremy@yourvone.com

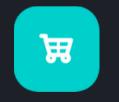

\bigcirc

Everyone has an app idea.

Only 4% of people know how to navigate a CMS.

NS.

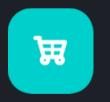

What do you do?

Agency: \$\$\$ Upwork/freelancer: \$\$ + questionable quality

...most just give up.

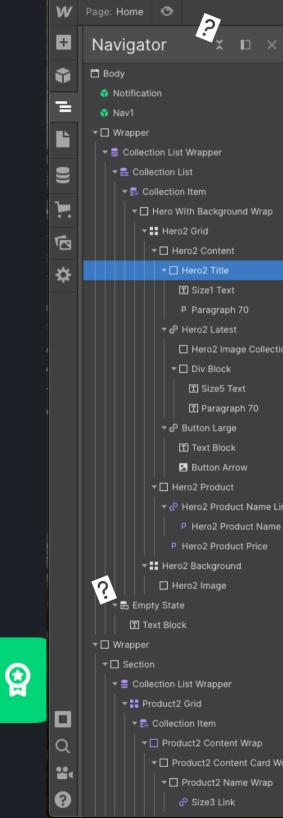

one

Other builders are way too complicated.

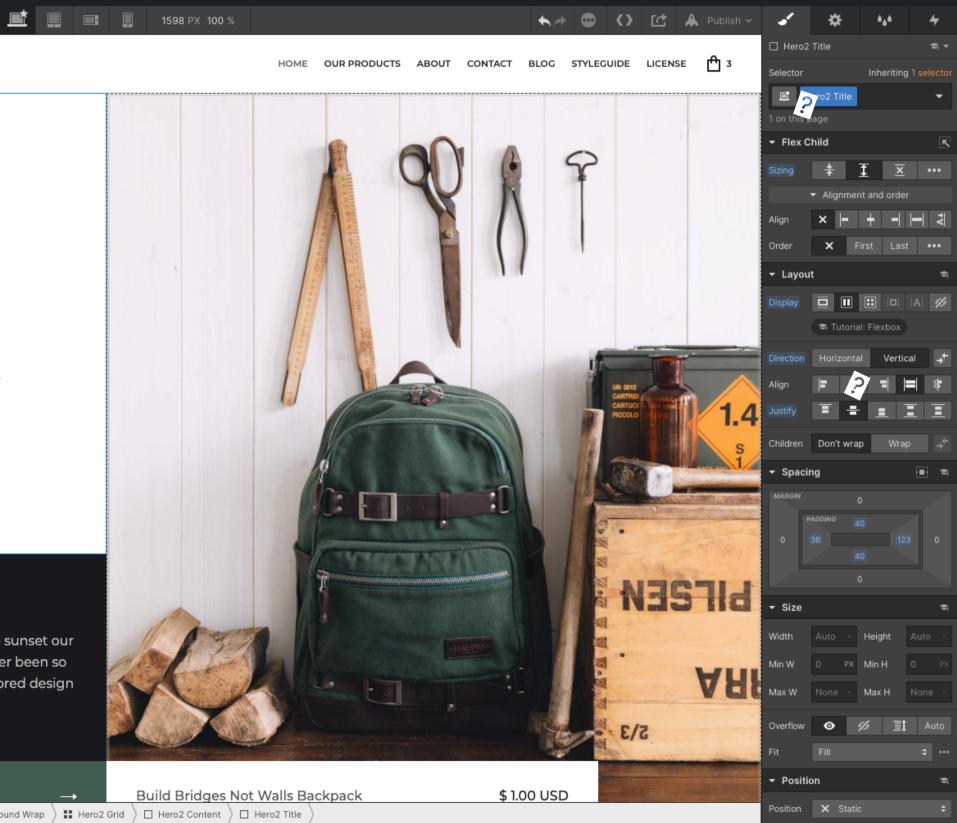

Ð

In the wave of the reat fashion

Hero2 Image Collectio mbining classic collections along with limited itions and hand printed signature designs. All of our ms are super comfy and cool at the same time

t the Bay Area

a tee and surf into the sunset our summer collection has never been so full of sunshine we love colored design and vibrant prints.
